STUDENT SCHEDULE PLANNER

COLLEGE SCHEDULER LLC

College Scheduler provides a **web-based schedule planner for use by students** creating schedules each semester.

1. Students simply enter the courses they wish to take for the upcoming semester.
2. Students can then enter times they need to schedule around, such as athletic practice, work, study, break, etc.
3. Every possible schedule is returned, enabling students to maximize credit hours, increase on-time graduation and find the perfect schedule. Creating a schedule around commitments has never been easier.
4. Potential schedules can be compared side-by-side and sent back to the student information system to complete registration.

Registrars can view **real-time course demand** reports to collect student demand analytics before registration even begins.

BENEFITS OF COLLEGE SCHEDULER

THE UNIVERSITY OF ALABAMA

WISCONSIN UNIVERSITY OF WISCONSIN-MADISON

PENNSTATE 1855

THE OHIO STATE UNIVERSITY

REGISTRAR

- Increases credit hours taken per student.
- React to Course Demand with real time reporting on which classes are being searched for the most.
- Help students graduate on-time by eliminating "filler" classes with fast, easy schedule planning.

ADVISING

- Advisors can spend more time helping students determine which courses to take, not the individual times to take them.
- Eliminate time-consuming schedule generation for special student populations like incoming freshmen, athletes, and advanced students.

INFORMATION TECHNOLOGY

- Get more functionality from your investment in PeopleSoft, Colleague, Banner, Homegrown or any other Student Information System.
- Reduce the course searching load on your system during registration time...our schedule planner is securely hosted off-site.
- Setup is fast and easy and go-live is 2 to 4 weeks.

TESTIMONIALS

"The College Scheduler team have been wonderful to work with. The Schedule Planner product is of course first rate and has been very well received by students. The value in working with College Scheduler has been that they have developed a great model for installing their software that involves very minimal university commitment. Further, they have been great to work with in developing ways their software can help us solve other scheduling issues."

- Jack Miner Sr. Associate Registrar
The Ohio State University

"As an academic advisor I am often looked upon to help students create a schedule for their upcoming semester. With numerous class options available mixed in with various activities outside of the classroom, sometimes creating a schedule is very time consuming. College Scheduler has taken a normal 15-20 minutes portion of an appointment and brought it down to a two minute process."

- Matt Zeig, Academic Advisor
St. Clair County Community College

University Texas A&M, Kingsville reported an increase in the amount of credit hours in the years following their implementation in 2007:

- Year 1 +4.2%
- Year 2 +9.4%
- Year 3 +10.3%

IMPLEMENTING COLLEGE SCHEDULER AT YOUR UNIVERSITY

"We did not experience any challenges in implementing College Scheduler, it was completely smooth. I've been through many different implementations over the years and this was by far the easiest. We also learned that the product looks and performs exactly how it was presented and demonstrated to us - no surprises."

- Holly Diamond, Director of Registration & Records
Henry Ford Community College
